### Significant event to be reported/ Eveniment important de raportat:

OMV Petrom SA ("OMV Petrom") received a statement of objections from the Romanian Competition Council concerning an alleged breach of antitrust regulations with respect to the withdrawal of the retail product Eco Premium (unleaded gasoline pre-mixed with lead substitute) from the Romanian fuels market. The alleged breach concerns a number of the key players on the Romanian fuels market.

The findings of the Competition Council, including possible financial sanctions, will be stated in the final decision which will be issued after the receipt of OMV Petrom's response to the statement of objections and after a hearing at the Competition Council. In accordance with applicable antitrust regulations the maximum fine may be up to 10% of the turnover.

OMV Petrom is of the opinion that the allegations are unjustified and will take all necessary measures to ensure that its position is fairly represented and reflected in the decision of the Competition Council.

During the time period of the alleged breach, Eco Premium had a market share of approximately 2% on the Romanian fuels market. The decision to withdraw Eco Premium from the market was based on environmental and economic reasons, duly considering consumers' interests.

OMV Petrom SA ("OMV Petrom") a primit un raport de investigatie de la Consiliul Concurentei cu privire la pretinsa incalcare a reglementarilor privind concurenta, ca urmare a retragerii de pe piata a Eco Premium (benzina fara plumb aditivata cu substitut de plumb). Pretinsa incalcare priveste o serie de actori importanti ai pietei de carburanti.

Concluziile investigatiei Consiliului Concurentei, inclusiv posibilele sanctiuni, vor fi cuprinse in decizia finala a Consiliului Concurentei, care va fi emisa dupa formularea raspunsului OMV Petrom cu privire la forma actuala a raportului de investigatie si dupa audierea in fata Consiliului Concurentei. In conformitate cu reglementarile in vigoare in materie de concurenta sanctiunile maxime pot ajunge pana la 10% din cifra de afaceri.

OMV Petrom este de parere ca aceasta pretinsa incalcare este lipsita de temei si va lua toate masurile necesare pentru a asigura o reprezentare corecta a faptelor relevante care sa fie reflectate in decizia finala a Consiliului Concurentei.

In perioada pretinsei incalcari, Eco Premium reprezenta aproximativ 2% din piata romaneasca de carburanti. Decizia de a retrage de pe piata Eco Premium s-a bazat pe considerente de mediu si economice, tinand cont in mod adecvat de interesele consumatorilor.
