Introduction

Directive 2010/76/EC (CRDIII) introduced the requirement that home Member State competent authorities have to collect information on the number of individuals per credit institution in pay brackets of at least EUR 1 million, including the business area involved and the main elements of salary, bonus, long-term award and pension contribution. That information shall be forwarded to the EBA, which shall disclose it on an aggregate home Member State basis in a common reporting format. To facilitate the data collection, in 2012 the EBA published Guidelines on the data collection exercise for High Earners, which includes the template used for the data collection.

Within this report the EBA presents the results of the data collection exercise regarding High Earners. According to the mandate, the report contains the aggregation of data regarding High Earners for 2010 and 2011 respectively, showing the number of High Earners for each Member State and the amount of remuneration received, separated into business areas and including the main elements of remuneration for each year.

National competent authorities have collected the data on High Earners from institutions on a consolidated basis, but have separated the data into figures for each Member State. All figures received from national competent authorities have been aggregated by EBA and represent the remuneration paid to High Earners in the given Member State, including remuneration paid to staff by a subsidiary or branch of a EU parent institution which is located in another Member State.

All but one Member State of the European Union have participated in this exercise. Poland will comply with the respective EBA guidelines and will submit data from 2012 onwards. Hungary and Norway have reported data for 2011 only, and for this reason the 2010 figures include only High Earners which have been reported by other Member States. Data from EEA countries was available from Norway for 2011.

Template used for the data collection: EBA/GL/2012/5 - ANNEX - Information on the remuneration of high earners

Footnote: Staff reported in the column "all other" consist of ... [to be completed as per footnote 4 below]

1. Incl. corporate finance advice services, private equity, capital markets, trading and sales.
2. Incl. total lending activity (to individuals and enterprises).
3. Incl. portfolio management, managing of UCITS and other forms of asset management.
4. This column should include high earners that cannot be allocated to one of the designated business areas. In this case, institutions should add a footnote (see end of the table) explaining in which areas these high earners work.
5. The numbers of staff provided should be expressed in full time equivalents (FTEs) and be based on year-end numbers.
6. Identified staff according to paragraph 16 of the CEBS Guidelines on Remuneration Policies and Practices.
7. Fixed remuneration according to paragraph 11 of the CEBS Guidelines on Remuneration Policies and Practices.
8. Variable remuneration according to paragraph 11 of the CEBS Guidelines on Remuneration Policies and Practices. This includes deferred and non-deferred variable remuneration. This also includes discretionary pension benefits, amounts regarding guaranteed variable remuneration and severance payments.
9. Discretionary pension benefits according to section 3.1.2 of the CEBS Guidelines on Remuneration Policies and Practices.
10. Deferred remuneration according to section 4.1.1 of CEBS Guidelines on Remuneration Policies and Practices.
